SUMMARY

Enterprise SaaS seller with **\$35M+** in career revenue and consistent quota overperformance (118% to 157% across measured periods) specializing in enterprise security and infrastructure platforms sold into regulated industries. Deep experience selling category-shifting technology against entrenched legacy vendors (KnowBe4, Proofpoint, legacy auth/fraud providers) by reframing the problem from compliance checkbox to measurable risk reduction. Create executive urgency around emerging security threats while positioning platform consolidation over fragmented point products. Navigate multi-threaded buying cycles across CISO, VP Security, IT, GRC/Compliance, HR/Recruiting and executive leadership.

Proven ability to build pipeline from zero in greenfield territories and convert net-new logos into multi-site platform expansion. Translate executive-level threat urgency (board-level security and compliance concerns) into pipeline by selling measurable risk reduction outcomes rather than training completions. Founder background building and scaling a digital platform to **150K+ users** and **\$45M transaction volume**. Deep alignment with founder-led, product-driven cultures scaling from early traction to repeatable enterprise execution.

SELECTED ENTERPRISE WINS

Major deals closed across complex multi-stakeholder environments:

\$1.65M St. Luke's University Health Network — Enterprise platform agreement across multi-site health system. Displaced legacy incumbent. Security and compliance requirements drove deal urgency.

\$1.32M Penn State Health — Enterprise platform across multi-site health system displacing legacy incumbent. Parallel approval tracks across clinical informatics, IT security and procurement. Won by demonstrating measurable risk reduction.

\$745K Sanofi — 4-layer approval across Platforms, R&D, IT Security and Engineering. Overrode existing vendor mandate through superior product validation and executive sponsorship. 6-site expansion in progress.

\$685K AMETEK — Enterprise land with expansion across 20+ subsidiaries. Displaced legacy incumbent through TCO modeling. Replaced fragmented point solutions with single platform.

\$373K Tower Health — Net-new logo displacing three legacy incumbent vendors. Four-thread sales motion won through security review alignment and ROI justification.

ENTERPRISE SALES COMPETENCIES

Enterprise Security Platform Selling | Legacy Vendor Displacement (KnowBe4, Proofpoint) | Security & Compliance Selling (CISO, VP Security, GRC, IT, HR) | Category Creation & Reframing | Greenfield Territory Development | Land-and-Expand | MEDDPICC | ROI / TCO Modeling | Partner Co-Sell | Platform Consolidation

PROFESSIONAL EXPERIENCE

Everpure (formerly Pure Storage) — Enterprise Account Executive

PA, NJ & DE | Aug 2024 – Present

15 named enterprise accounts across healthcare, pharma and manufacturing. \$2.75M annual quota.

- Closed **\$3.34M across 7 deals** in FY26 (**134% attainment**). Average deal size \$500K to \$1.65M.
- **On pace at 60% of FY27 quota** through Q1. \$4M+ active pipeline across named enterprise accounts.
- Led competitive takeouts of legacy incumbent vendors by reframing evaluations from point-product features to platform-level risk reduction. Positioned platform consolidation over fragmented incumbents, converting accounts into unified enterprise agreements.
- Built **\$25M+ pipeline** from scratch across ~80% whitespace territory by identifying security-driven modernization initiatives and creating urgency around platform risk.
- Evergreen/One StaaS consumption sales: St. Luke's (\$1.65M), Penn State Health (\$1.32M), AMETEK (\$685K).
- Advanced deals through 4-layer stakeholder approval (Engineering, IT Security, Procurement, Legal). Multi-threaded across 4 to 6 personas per deal. Built joint GTM with AWS, NVIDIA, Accenture, CDW, SHI and WWT.

Verkada — Enterprise Account Executive (SLED)

Southern NJ | Oct 2023 – Aug 2024

- **157% overall attainment.** Generated \$6M+ pipeline and closed \$1.34M in first year.
- Closed 6 net-new logos in greenfield territory with no existing pipeline or channel presence. Built repeatable prospecting engine and partner ecosystem from zero in a high-growth startup environment.
- Sold cloud-managed enterprise security platform into healthcare, corporate and public-sector organizations. Navigated procurement across IT, facilities, security and executive stakeholders.
- Won deals by selling into security-driven urgency: incident response timelines, threat escalation scenarios and compliance gaps that created board-level attention.
- Promoted to SLED team lead. Selected for management training based on territory performance and GTM contribution.

OneSpan — Enterprise Account Executive

North & South Region | Nov 2022 – Oct 2023

- **127% attainment Q1-Q3; 146% Q3.** Closed net-new enterprise SaaS platform agreements.
- Sold cloud-based identity verification, fraud prevention and compliance platforms into regulated financial institutions (1,000 to 10,000+ employees). Led cycles requiring compliance alignment, security architecture review and executive sponsorship.
- Sold against legacy authentication and fraud prevention vendors by reframing the conversation from point-solution features to platform-level risk reduction and behavioral analytics.
- Designed outbound pipeline motion targeting accounts undergoing vendor consolidation. Built signal-based prospecting playbook generating consistent net-new pipeline.

Lochness Labs — Founder & CEO

Philadelphia, PA | Nov 2021 – Nov 2022

- Raised **\$2.5M seed funding**. Scaled digital platform to 150K+ users and \$45M transaction volume in first 3 months.
- Generated **\$3M revenue in Year 1**. Owned product roadmap, GTM strategy and revenue. Built the company from concept through acquisition in under 12 months.
- Partnered directly with engineering to ship product on aggressive timelines. Deep alignment with founder-led cultures that prioritize speed, iteration and customer feedback. Exited via private acquisition.

Stryker & Wright Medical — Territory Sales Consultant

Philadelphia – NJ | Mar 2017 – Nov 2021

- **120%+ attainment across tenure. President's Club Winner.** \$4.5M+ annual revenue.
- Sold into hospital systems navigating complex adoption cycles, value analysis committees, GPO contracts and capital budget approvals. Consistently managed 4+ stakeholder threads per deal.
- Closed \$500K+ competitive conversions against entrenched incumbents. Built trusted advisory relationships with clinical leadership, supply chain and C-suite.

Medartis — Territory Sales Consultant

NYC – Nashville – Philadelphia | May 2013 – Mar 2017

- **Ranked #2 nationally. 4x top performance awards.** 30 new enterprise accounts in first 10 months.
- Converted multiple organizations from entrenched incumbent competitors through technical validation, stakeholder alignment and superior product positioning.

SALES METHODOLOGY & TOOLING

MEDDPICC | Challenger Sale / category reframing (awareness from compliance checkbox to behavioral risk reduction) | **Security-driven urgency selling** (incident response, compliance gaps, board-level security urgency) | Technical pilots and POCs | Enterprise security review processes | Partner ecosystem selling | Signal-based prospecting | Land-and-expand playbooks
